

## Test strips pH , 4-9 pH units

Продукт №:	2745650
BGN Цена:	Свържете се с нас
Налично	

Most natural waters range from pH 4 to pH 9, but commonly are above pH 7 because of carbonates and bicarbonates (alkalinity). The pH of water used in industry, boiler feed water, and swimming pools usually is kept within a narrow range. Contains 50 tests.

**Easy to use, disposable, and inexpensive**

**Great for quick evaluations of pH levels in the lab or in the field**
