Продукт №: HQ40D.99.101201

**ОСТАРЯЛ АРТИКУЛ**

Този артикул вече не е наличен.

### Rugged portable meters for use in the field and plant.

Portable two channel multi meter for pH, ORP, conductivity, TDS, Resistivity, Salinity, LDO and ISE. Instrument with Standard pH Gel electrode and Standard Conductivity cell, cable length 1m.

The digital meter/electrode system combines reliability, flexibility and ease of use. Interchangeable INTELLICAL electrodes are recognised automatically and store all relevant data. Rugged, nearly indestructible outdoor versions with multiple cable lengths enable measurements even at previously inaccessible locations.

Replaced by NEW HQ Series.

**Outstanding reliability and simple handling**

**Versatile electrodes for all applications, e.g. wastewater, drinking water, process water**

**Reliable results from inaccessible measurement locations and over long distances - even for pH**

**Error-free O<sub>2</sub> results - without calibration or replacing the electrolyte**

**Full GLP data management**
